Directions to get to Personalized Stamped Envelope order form on USPS.COM.

1. Go to GOOGLE, enter USPS

2. In "Search USPS.com" box, enter "forms" and click on "go"

3. Under "Recommended Links", click on "Forms & Publications"

4. Under "Forms & Publications", click on "Order Forms"

5. In column on left hand side, click on "Order Forms"

6. Under "Order Forms", click on third listed form - PS Form 3203-X (PDF)

7. Print out all three pages

A. There are two different kinds of sealing flaps - WAG (water activated gum) - the old kind; and a NEW KIND, PSA (pressure sensitive adhesive)

B. You can order four different envelopes (Seabiscuit - WAG, Seabiscuit - PSA, Forever - WAG, and Forever - PSA)

C. You can order all four different envelopes in each of six sizes (6-3/4, 6-3/4W, 9, 9W, 10. and 10W). This makes 24 different kind/size combinations.

D. There are now four different type font styles - Arial, Courier, Script, and Times New Roman. Each unique font style order costs $1 extra per order except for the Arial font style.

E. There are now three different type font sizes - 8 point, 10 point, and 12 point. Each unique font size order costs $1 extra per order except for the 8 point font style.

F. There are now four different type colors - Black, Blue, Green, and Red. Each unique font color costs $1 extra per order except for black.

G. Thus an order for Courier, 10 point, Green is $3.00 extra for a box of 50 (if you are ordering boxes of 500 rather than of 50, the cost is $6.00 extra).

H. Any change in the return address text will require a new order thus causing a whole new order - and thus a new surcharge (*the printed details are really not crystal clear*).
